CONCUSSION WAIVER California Sports Institute asks that you read, acknowledge and that you understand our concussion safety policy below. What is a Concussion? A concussion is an injury that changes how the cells in the brain normally work. A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Concussions can result from a fall, players colliding with each other, or impact with other objects. Even a “ding,” or what seems to be a mild bump or blow to the head can be serious. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. As many as 3.8 million sports- and recreation-related concussions occur in the United States each year.

The Facts Recognizing a Possible Concussion 1. A concussion is a brain injury. 2. All
